FOR MORE THAN**

10 YEARS

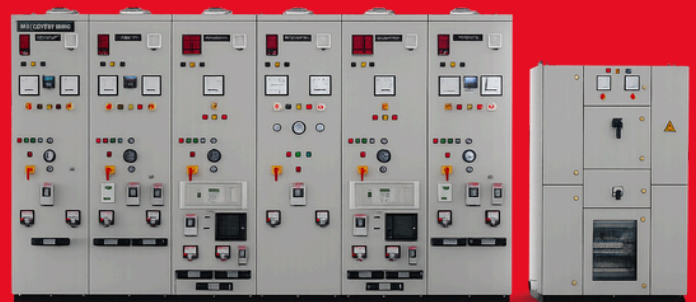

Why us

Established in 2016, we are an ISO 9001:2015 certified company proud to celebrate a decade of engineering excellence high-performance electrical systems. Over the past 10 years, our core focus has been manufacturing a comprehensive range of HT and LT electrical panels. Every system we deliver is engineered in absolute compliance with global quality benchmarks and tailored precisely to meet the rigorous operational demands of our clients.

Our Motto

Driven by a benchmark of 100% client satisfaction, our core motto is an uncompromised commitment to engineering quality, operational safety, and on-time project delivery. Our enduring decade-long relationships with premier Government bodies and leading Private Corporations—maintained with an unblemished record of zero critical complaints—stand as a testament to our manufacturing integrity.

Types of Panels

LT (Low Tension) Panels Range

- **PCC Panel** – Power Control Center Panel
- **MCC Panel** – Motor Control Center Panel
- **APFC Panel** – Automatic Power Factor Control Panel
- **AMF Panel** – Automatic Mains Failure Panel

HT (High Tension) Panels Range

- **VCB Panel** – Vacuum Circuit Breaker Panel
- **RMU Panel** – Ring Main Unit Panel
- **HT Distribution** – High Tension Power Distribution Panel
- **HT Isolator** – High Tension Isolator Switch / Disconnecter Panel

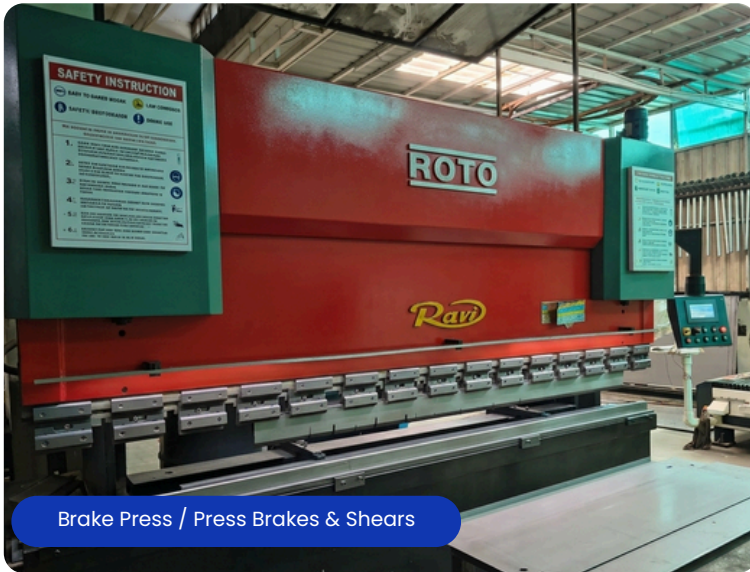

CORE TECHNICAL SPECIFICATIONS

Technical Parameter	LT Panels Range	HT Panels Range
Operational Voltage	415V AC / 440V AC / 690V AC	11 kV / 22 kV / 33 kV
Short-Circuit Capacity	Up to 50 kA for 1 Second	25 kA / 26.3 kA for 3 Seconds
Ingress Protection	IP54 (Indoor) IP65 (Outdoor)	IP4X (Indoor) IP55 (Outdoor)
Enclosure Materials	CRCA Steel, MS, SS304/316	Heavy-Duty CRCA Steel
Non-Metallic Alternatives	Polycarbonate & FRP Composites	Available on Custom Request
Compliance Standards	IEC 61439-1 & 2 / IS 8623	IEC 62271-200 / IS 13118
